Norfolk, VA | P: 757-770-1684 | eamorris91@gmail.com

EDUCATION

OLD DOMINION UNIVERSITY

Bachelor of Science
Major in Computer Science; Minor in Computer Engineering
Cumulative GPA: 3.97/4.0, Summa Cum Laude

Norfolk, VA
August 2025

CENTER FOR SURFACE COMBAT SYSTEMS

Advanced Electronics/Computer Field Technical Training

Great Lakes, IL
Dec 2017

TIDEWATER COMMUNITY COLLEGE

Associate of Science
Major in Business Administration
Cumulative GPA 3.6/4.0, Magna Cum Laude

Virginia Beach, VA
Dec 2012

WORK EXPERIENCE

NAVAL SURFACE WARFARE CENTER CARDEROCK, CCD

Software Engineer Intern (Unmanned Service Vessels)

Norfolk, VA
May 2024 - July 2024

- Implemented a low-level autonomy controller for small combat crafts working with embedded systems, PID modules, microcontrollers, and other U.S. Navy proprietary naval systems software.
- Developed technical design documentation according to U.S. Navy standards for an autonomous naval surface vessel including system requirements, testing methods, and system capabilities

UNITED STATES NAVY

Petty Officer First Class, Harpoon and Tactical Tomahawk Weapon System Electronics Technician

San Diego, CA
Apr 2017- Nov 2022

- Served as Work Center Supervisor to Combat Missiles, organized preventative maintenance schedules to ensure equipment operation resulting in 100% compliance to congressionally mandated INSURV inspection
- Led 6 strike operators as Assistant Engagement Control Officer in TTWCS Strike Scenarios achieving the highest T-1 rating across 85 scenarios and 2 deployments
- Evaluated time sensitive tactical data for determining the optimum flight path according to international maritime/airspace regulations for Tomahawk missiles utilizing GCCS-M overlays and GPS tracking information
- Performed electrical circuit fault isolation analysis and repaired fire control systems casualties to the lowest replaceable assembly on U.S. Navy ship equipped missile launchers and guidance systems

WHOLE FOODS MARKET

Associate Team Leader | Department Buyer | Team Member

Virginia Beach, VA
Oct 2012 - Jan 2017

- Managed a retail team of 25 members, achieving consistent weekly sales of \$125,000 and an average margin of 37%, demonstrating strong leadership skills and a strategic approach to driving revenue

UNIVERSITY PROJECTS

FIREARM INVENTORY MANAGEMENT SYSTEM

Dec 2024

- Designed and implemented an inventory management system utilizing passive RFID inlays to track and safely store firearms with a team of five computer science seniors
- Developed feasibility and digital design documentation to assist in developing the prototype and real-world product; acknowledged as most innovative project by ODU tenured professors

ADDITIONAL

Programming Languages: C++, Java, Python

Technologies: SQL, Git, Vim, Visual Studio Code, HTML/CSS, Docker, TTWCS, GCCS-M, ANSWG-1A, IQAN, CAN bus

Security Clearance: Secret

Awards: Navy and Marine Corps Achievement Medal, Good Conduct Medal, Distinguished Military Graduate
